Grape Minds

Grape Minds was formed in 2018 by two friends Graeme Woodward and Michael Jelley. Sharing a love of wine and a love of retail, their aim was to bring a great independent retailer to Oxfordshire, starting in their stomping ground of Summertown. 6 years on they have shops in Summertown and Wallingford, a big team of brilliant enthusiasts, and the large, stylish Summertown Wine Bar on the Banbury Road in Summertown which already feels like it's been there forever. On the way, they have developed a reputation for sourcing superb wines from around the world, importing nearly half directly from wineries, while also developing their wholesale offering, free nationwide delivery and more to come. In addition, they are well known for hosting fun and engaging private and public tasting events, pairing menus for customer events, and occasionally enjoying a glass themselves. Both owners have tasted every single wine and if they don't love them, they don't stock them...

What a job!

At the festival in 2024 they are showcasing a selection of shop favourites, and talking about English Sparkling Wine and Champagne.

Luca Wine

Luca Wine Limited is a small company, based in Pershore (Worcestershire) specialised in import of high-quality wines from Italy (mainly from Piedmont). Luca Wine can offer 90 types of wines (mostly organic certified). They are made by little winegrowers (family farmers), with passion and soul, in limited quantities. It offers a wide range of wines, less known denominations (Nizza, Roero, Dogliani, Derthona, Erbaluce, Gattinara and Faro) made from less known vine varieties (baratuciat, timorasso, nascetta, erbaluce, ruchè, pelaverga, freisa and grignolino) together with other famous vine varieties like barbera, dolcetto and nebbiolo.

The wines are recognized in several Italian Wine Guides and twelve of them have been awarded a bronze medal and three of them a silver medal by Decanter in the last two years. They are currently exported in USA, Canada, Japan, Germany, Norway, and other European countries.

Podere Sant'Alberto

A family-owned estate, Podere Sant'Alberto is located north of Siena, between the fortified villages of San Gimignano, Monteriggioni and Castellina in Chianti. The estate covers 12 hectares of mixed woodland, olive groves and vineyards on sloping terrain of limestone and clay at an elevation of around 250 metres.

The Podere has 2.5 hectares of vines, all the work in the vineyard and cantina is carried out traditionally; by hand and organically. Our native old vine varietals produce naturally low yields which results in extremely vibrant and concentrated expressions.

Rias Baixas

RÍAS BAIXAS: THE HEARTLAND OF ALBARIÑO D.O. Rías Baixas is widely acknowledged as the heartland of Spain's most fashionable white grape variety, Albariño. 95% of all grapes grown here are Albariño grapes. Nestled up in the remote north west corner of Spain by the side of the Atlantic Ocean, Rías Baixas is also famous for its lush green landscape, steep terraced vineyards and granite 'pergolas', not to mention the cornucopia of fresh fish hauled daily out of the ocean just a stone's throw away!

This is an area which is a far cry from the Spain of popular imagination, and as such remains a relatively undiscovered region to all but a few "in the know". Yet the wine emanating from this delightful corner of Spain is certainly gaining recognition worldwide for its refreshing peach, elderflower, citrus and tropical fruit aromas and silken palate. Come along and try for yourself!

Southern Wine Roads / Zito Wine

SOUTHERN WINE ROADS is back in tribute to our favourite wine festival of all at the amazing city of Oxford! This time we have teamed up with a great partner, ZITO WINE, to bring you a little more of Old World excellence and flare!

Founded in 2014 with the aim to promote Greek wine in the UK, we continue to create a unique selection that is difficult to match. Wine is a superior quality product for Greece and of a rich, long and uninterrupted tradition that we believe we know well. In our 10-year span, we have been recognised for the quality and breadth of our selection, as well as a game changer for the region. We showcase a wide range of the country's subregions, from North to South and East to West, including many islands, as well as diverse wine styles, from classic to skin contact, resinated & sweet wines with a majority of organic and low intervention labels. We work outside the beaten path of 'touristic' Greek wine by offering great value labels that come with full background information. Maria, our founder, has been educating on wine on every opportunity including at the WSET London School.

ZITO WINE has been working on wine with passion for about the same amount of time before crossing paths with SOUTHERN WINE ROADS. After years of work in fine dining hospitality, we, Natasha & Filippo (the Zitos), decided to share our love of wine with you by creating a unique and captivating wine selection. Our focus is on Sicilian and Greek wine, as these are our roots but our selection encompasses wines from all over the world. We hold internationally recognised qualifications such as WSET and Court of Master Sommelier/ Italian Association of Sommeliers (AIS) and we are a member of the Champagne Academy. Not the least, we produce our own wine in Sicily, with the help of our family, under the name Azienda Agricola Leonardo Zito.

Saddle Goose

Saddle Goose is a small craft English wine, producing around 4000 bottles per year, made with minimal intervention. We're passionate about English grapes and wine production, pushing the boundaries of what's possible, whilst treading lightly on our environment. Finding inspiration from ancestral winemaking practices of old, we often blend that thinking with modern technology and winemaking. We also source the best possible quality English grapes from organic or regenerative growers who truly care about their soils. Our belief is that wine is a natural and constantly evolving product that reflects the vineyard where the grapes are grown, the UK climate, and the passion and craft of the winemaker. That's what makes each bottle so unique, as it paints a delicious picture of a time and place.

Babylonstoren

Babylonstoren is one of the oldest Cape Dutch farms, dating back to 1692. It has a fruit and vegetable garden of beauty and diversity, unique accommodation, fine food and a sense of wellbeing. Our wines are produced in a state-of-the-art winery and are made to showcase the soils and climate where its grapes are grown. We have 88 hectares under vine and produce 13 different grape varieties with our highest vines – pinot noir and chardonnay – lying against Simonsberg at some 600 metres above sea level. Our wines are best exemplified by the Babylonstoren logo, which consists of the pipe (representing the farmer), the flower (representing the garden) and the bird (representing nature). It is a combination of the very essence of Babylonstoren – keeping things simple and as true to the earth as possible. "It is this that we strive to achieve in our wine," says Charl Coetzee. "Truth to the area we are situated in on the slopes of Simonsberg, and simplicity by making elegant and balanced wines as natural as possible."

Treaty Port Vineyards

Chris & Tiffany Ruffle established Treaty Port Vineyards (www.treatyport.com) in 2004. Wine has been made in the old treaty port of Chefoo (now called Yantai) on the Shandong peninsula since the early 20th century, but this is the first vineyard planted on the granite slopes of Qiushan. A number of winemakers have followed Treaty Port's lead; Lafite planted its first vineyard in Asia on a neighbouring plot, producing its first vintage in 2017. It has taken several years to work out the varieties and cultivation methods best suited to the climate and local taste. The full story can be read in "A Decent Bottle of Wine in China", available on Amazon.

Treaty Port wines are distributed in the UK through www.therealwineco.co.uk
